

# Be Mine

Eli Sostre

Tryna take it slow

I been in the city man I didn't know  
Where the fuck to go  
I'm off high grade so  
Yea she ride round, she just want a new Rolls  
Where the stars at? Where my dawgs at? Where the broads at?  
Hunnid tattoos on her body, yea she all that  
Pull up in that pfttt, the fuck you even call that?  
Know they hating on me and they bout to take a long nap  
Project baby  
Didn't understand why my brother hit the navy  
I had to turn to man, man I pull up in a cedes  
Turn into a fan I don't even want yo lady  
But on the other hand, she want all that  
Yea, fuck you need from me? Pills and weed from me  
Why round for me? You can't be for me  
Why they want from me? What they need from me?  
You won't die for me, You won't bleed for me

You said that you love to be mine  
Tryna take it one day at a time  
I tell you it all will be fine  
I could tell what's all on your mind  
If you say that your mine then be mine  
Tryna take it one day at a time  
I tell you it all will be fine  
I could tell what's all on your mind

I might wake up and decide to change yo life  
Said you want the world, I tried to give it twice  
My heart on ice yea, put you on that flight yea  
Make up your mind said you need me for the night  
Where was you each and every time I needed you?  
Where was you? All these feelings yea they hated you  
They tried to switch the facts, look at the view and where we at  
Said they missed me, I was gone, okay now I'm back

Yeah, friends died  
Show your best side  
You let death die  
You my best side  
Tatted on fire  
Love in disguise  
I could be your plug

You said that you love to be mine  
Tryna take it one day at a time  
I tell you it all will be fine  
I could tell what's all on your mind  
If you say that your mine, then be mine  
Tryna take it one day at a time  
I tell you it all will be fine  
I could tell what's all on your mind
