

## Bout Us

Eli Sostre

I don't need nobody, fuck they think this is  
Automatic sig, I got hella rich  
Got a yellow bish, and a brown skin  
And a down bish, oh yeah, we locked in  
They still hatin', that's the reason they ain't got shit  
Sometimes I'm paranoid, I think they want me boxed in  
Like why you talking to them, I know that y'all not friends  
Why you talking to me like I ain't got options

Too busy to think about us  
I don't know what you were thinking of  
Somehow you forgot about love  
Somehow you forgot about us  
Too busy to think about us  
I don't know what you were thinking of  
Somehow you forgot about love  
Somehow you forgot about us

And I know you feel a way because I been through this before  
I know, you know, I know, you know  
Yeah, I'm missing you but I'm ready to go head and hit the door  
I know, you know, I know, you know  
The way you did me, feeling like you put my heart upon the floor  
I know, you know  
Yeah, I done heard it all before, yeah  
Yeah, I done heard it all before, yeah

Too busy to think about us  
I don't know what you were thinking of  
Somehow you forgot about love  
Somehow you forgot about us  
Too busy to think about us  
I don't know what you were thinking of  
Somehow you forgot about love  
Somehow you forgot about us
