

broken

Eli Sostre

I need you more than you know
Hard for me to just stay focused
And you was at my side at my lowest
Baby girl when I feel broken

I'm just moving fast trying slow it
I need you right now, come hold me
I know that they try control me
Baby girl when I feel broken

I need you more than you know
Hard for me to just stay focused
And you was at my side at my lowest
Baby girl when I feel broken

I'm just moving fast trying slow it
I need you right now, come hold me
I know that they try control me
Baby girl when I feel broken

Bae I'll be gone by the morning just say what you want
I got you back in my arms now I got shit to flaunt
Save you for nothing I think that you putting a front
I deal with the pain baby you do what you want too

You know I want you
You know I need you in my life
You know I'm trying to make this right
And I'll be there for you I swear for you my
And you could have all of me
I care for you my love

I need you more than you know
Hard for me to just stay focused
And you was at my side at my lowest
Baby girl when I feel broken

I'm just moving fast trying slow it
I need you right now, come hold me
I know that they try control me
Baby girl when I feel broken

I need you more than you know
Hard for me to just stay focused
And you was at my side at my lowest
Baby girl when I feel broken

I'm just moving fast trying slow it
I need you right now, come hold me
I know that they try control me
Baby girl when I feel broken
