

## Call Up

Eli Sostre

Never thought you would change on me  
Now you actin' strange on me  
I just made one for the freaks  
She wanna spend all summer free  
You got your hair and nails did  
Know you been down for these days  
You got your mind full of games  
I'm the type, feel my neck for the chains  
I hit the road off the Jack  
Most of these hoes just don't know how to act  
You should just hold it down, don't hold me back  
Shit been so crazy, just keep me on track, yeah  
Call you 'round seven, pull up Benzo  
I been tryin' to get up in the endzone  
Fuck you so good, let your friends know  
Still movin' lowkey, no info

Are you down?  
Well that depends  
(Call up)  
Do you wanna come through?  
Well it depends  
(Who you know?)  
Who you gon' run to when I'm gone?  
When I'm not around, who you want?  
What you want from me?  
Tell me what you want  
(Tell me what you want)  
Are you down? Well that depends  
(Call up)  
Do you wanna come through?  
Well it depends  
(Who you know?)  
Who you gon' run to when I'm gone?  
When I'm not around, who you want?  
What you want from me?  
Tell me what you want  
(Tell me what you want)

Hit me with the addy, baby I'm down  
Why you treat me different when I ain't 'round?  
Tell me that you ain't got much to say now  
Always thinkin' 'bout you when I lay down  
Who could be the one, if it ain't you?  
Always kept it hundred, gotta stay true  
Look at how they try to paint you  
After all the shit we been through

Are you down? Well that depends  
(Call up)  
Do you wanna come through?  
Well it depends  
(Who you know?)  
Who you gon' run to when I'm gone?  
When I'm not around, who you want?  
What you want from me?  
Tell me what you want

(Tell me what you want)

You know you deserve this shit, you deserve it  
Tell you that I'm down for this, yeah, yeah  
I ain't made love in a while, I ain't made love  
I ain't deal with all the drugs in a while, drugs  
You know you deserve this shit  
Girl you got me on some nervous shit  
See I ain't made love in a while, ayy  
I ain't deal with all the drugs in a while
