You checked some years ago for some dirt
Uh, I was off a addy, not a Perc
I see dead people when I put in work
Hunnid million 'fore they put me in the dirt (Yeah)
I'm smoking something got me feeling free
You could leave, this ain't where you wanna be
Leave the kis to the V's and their fees
You've been up ever since you've been with me

This money is the reason that you stay
Put another bitch up in your place
Thinking that you cannot be replaced
Hit Hawaii, get a little space
Popped out, uh
Twenty thousand for the pop out
Only fuck her if it pop out
When it's summertime, we pull them drops out
Mama told me put the drugs down
You got money, don't you fall in love now
'Cause they only want you for the ones
I'ma leave this money for my son, ayy
