Eli Sostre

Got me feeling like the one  
Say it's love and you don't know who to trust  
Don't you ask me why I'm actin' up  
Tell them boys they need to pack it up  
Young Pirelli got these women in a frenzy  
Send a shot at me I'll bust it 'til it's empty  
Talk about it make sure that you don't offend me  
I feel like we the only thing moving  
Got that bitch a purse I dropped a couple racks  
It don't matter what I spend 'cause I just double back  
See the fortune and the fame that how shit was now  
You love me when I had nothing don't tell me lies now

Girl you know them diamonds are like glass  
Got some problems make a nigga wanna spazz  
Little attitude problem make it last  
Is you with me baby? I just gotta know  
Girl you know them diamonds are like glass  
Got some problems make a nigga wanna spazz  
Little attitude problem make it last  
Is you with me baby? I just gotta know

I don't need a thing I got my own shit  
I grew up with nothin' I was focused  
Yeah you tellin' stories 'bout some old shit  
I can't find nobody that I owe shit  
Takin' off while we dab but we still stoned  
Call her to the hotel that's when I had the Honda  
Gave 'em all the style then I made another  
L O beat the trial that's my fucking brother  
Came from nothing but we had love  
Momma say, "I'm just happy it ain't mask and gloves"  
Bad bitch make me wanna clean the trap up  
I ain't fuckin' with these niggas don't get dabbled up

Girl you know them diamonds are like glass  
Got some problems make a nigga wanna spazz  
Little attitude problem make it last  
Is you with me baby? I just gotta know  
Girl you know them diamonds are like glass  
Got some problems make a nigga wanna spazz  
Little attitude problem make it last  
Is you with me baby? I just gotta know

See I just gotta know  
Baby I just gotta know, know, know  
See I just gotta know  
Baby I just gotta know, know, know
