You know me too well
Know exactly what I'm thinking
Yeah that's too much
Arguing when I get drinking
Too in love now
I can't give it up no more
Say wassup now
If it ain't what it was no more

Just don't go
Don't break away
Baby I need you to stay
With me your secrets are safe
I'll take that shit to the grave

Just don't go
Don't break away
Baby I need you to stay
With me your secrets are safe
I'll take that shit to the grave

I leave it to God, can't preach where we are
Live amongst the stars, sometimes feel like war
Say you really love me, but not like before
It seem like your feelings changed, I hit the door
Try to hit me with it, so he hit the floor
Let's not talk on that before I get paranoid
Yeah
Call my bitch a baddie, I could film it all
I want you to ride me with the ceiling off

You know me too well
Know exactly what I'm thinking
Yeah that's too much
Arguing when I get drinking
Too in love now
I can't give it up no more
Say wassup now
If it ain't what it was no more

Just don't go
Don't break away
Baby I need you to stay
With me your secrets are safe
I'll take that shit to the grave

Just don't go
