

New Level

Eli Sostre

Addicted to pressure
Addicted to pleasure
They never gon' measure
Up to my level
I was low as the devil
Now I'm ridin' this demon
Now we on a new level
This shit feel like the Heavens
All the bullshit get buried
Matter fact I forget you
You was only somebody
This was never that special
Got the key to my heart
There's no key but it start
They ain't pass me the torch
Now they love me I'm scorched

Fuck with me 'cause I'm high
Give a fuck 'bout your thot
Give a fuck 'bout your bitch
Give a fuck 'bout your block, bitch
I'm too busy for backs
I'ma settle for top
I'ma handle the rock
Is you ready or not? (Yeah)

Addicted to pressure
Addicted to pleasure
They never gon' measure
Up to my level
I was low as the devil
Now I'm ridin' this demon
Now we on a new level
This shit feel like the Heavens
All the bullshit get buried
Matter fact I forget you
You was only somebody
This was never that special
Got the key to my heart
There's no key but it start
They ain't pass me the torch
Now they love me I'm scorched

I'm livin' way too fast
Love comes and go, the feelings last
Give you all of me but you can't grasp it
Livin' life without you, can't imagine

I'm livin' way too fast
Love comes and go, the feelings last
Give you all of me but you can't grasp it
Livin' life without you, can't imagine
