

Saving Face

Eli Sostre

Yeah, yeah, yeah
Yeah, yeah, yeah
I been around for you, girl
You know that I'm down for you, girl
It's been a minute since I seen you

I'm saving face
They still cannot take your place
If it's still love you should say
Hate it when I go away
I got that money impress
No I won't ever forget you
One day you gon learn your lesson
I hope you never forget this

I take my shot
Got drunk, woke up at your spot
Don't got the time of the day
I just copped rollie my watch (Yeah)
I got addictions to you
Better be lifted with you
I need some pictures of you
Lately I've been missin' you
Yeah, yeah, yeah, yeah

I'm saving face
They still cannot take your place
If it's still love you should say
Hate it when I go away
I got that money impress
No I won't ever forget you
One day you gon learn your lesson
I hope you never forget this

Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
