

# Way Back

Eli Sostre

Yeah (Yeah)

You say you needed a challenge  
Baby, I'm lookin' for balance  
Yeah, I heard you on a pole  
Yeah, I heard you got a talent  
How you movin' down to South Beach  
Put the grill up in my mouth piece  
Back then used to doubt me  
Now they can't live without me  
I know what you been through  
I know what you saw, oh  
I know they don't know you  
You know who to call  
That was back, back then  
I done grewed up now  
She said, "No" back then  
She gon' show up now, now, now

Like we go way, way, way back  
Like we go way, way, way back  
Don't tell me you fell in love  
You know you can't take that back, yeah  
'Cause we go way, way, way back  
'Cause we go way, way, way back  
'Cause we go way, way, way back  
'Cause we go way, way, way back
