

You Wouldnt Know

Eli Sostre

I know you got responsibilities, yeah, yeah
I know these drugs, they make you feel like me, oh
Girl, don't treat me like the enemy, ayy
All these problems fucking up the chemistry
Living way too fast, I need to slow down
I ain't really moving with my old crowd
They ain't love me way back then, but wan' get close now
Yeah, they wan' get close now
My vision these bitches, and money, hoes now
I got a kiss on the neck and she got no clothes now
Yeah, that's just how it goes down
Yeah, she let it go down

Tell me you've been looking for some changes
I hope you never fall for me, that's dangerous
I hope you never let 'em take my place
I hope you never let 'em take my place
Tell me you've been looking for some changes
I hope you never fall for me, that's dangerous
I hope you never let 'em take my place
I hope you never let 'em take my place

You wouldt know, you wouldn't know, you wouldn't know, yeah
Yeah, you wouldn't know, you wouldn't know, you wouldn't know
Yeah, you wouldn't know
Yeah, you wouldn't know (Know)
No, you wouldn't know
No, you wouldn't know
