

# Bubble

Elijah Blake

Now that I'm enclosed  
From the other side  
I could use a little more time  
For me and mine  
You and I

Even when the California rain is falling  
Even through the messages and nonstop calling  
I just need a minute  
Could you help me heal my mind again?

I just wanna hide from the world  
And all of that trouble, trouble  
I just wanna lie with you right  
Here in our bubble, bubble  
Forget about the fire outside  
Just keep it real subtle, subtle  
I just wanna lie with you right  
Here in our bubble bubble  
And we can lie under the stars  
Here in the dark  
Can we just stay like this for a little while?  
Just how we are  
Free from the karma  
Can we just stay like this for a little while?

It's hard to tell your friends from your enemies  
I could use a little more peace  
I'm really tired of being villainized  
So I smile

Even when the California rain is falling  
Even through the messages and nonstop calling  
I just need a minute  
Could you help me heal my mind again?

I just wanna hide from the world  
And all of that trouble, trouble  
I just wanna lie with you right  
Here in our bubble, bubble  
Forget about the fire outside  
Keep it real subtle, subtle  
I just wanna lie with you right  
Here in our bubble, bubble

Ooh, ooh, ooh, ooh  
Ooh, ooh, ooh, ooh, ooh  
Can we just stay like this for a little while?  
Ooh, ooh, ooh, ooh  
Ooh, ooh, ooh, ooh, ooh  
Can we just stay like this for a little while?

I just wanna hide from the world  
And all of that trouble, trouble  
I just wanna lie with you right  
Here in our bubble, bubble  
Forget about the fire outside

Keep it real subtle, subtle  
I just wanna lie with you right  
Here in our bubble, bubble  
And we can lie under the stars  
Here in the dark  
Can we just stay like this for a little while?  
Just how we are  
Free from the karma  
Can we just stay like this for a little while?  
  
Can we just stay like this for a little while?
