Finna get wreckless  
I'm all one, I'm on now  
Hit me with the tex message  
I can't talk, it's too loud  
Man, look at me now  
Super f\*cked up  
Too adderals later and I'm 'bout to fall down  
But there's plenty more rounds to go

I feel like  
Falling in love, falling in love, tonight  
Ah yeah, yeah, yeah  
I feel like  
Falling in love, falling in love, surpass the light  
Baby you're gonna be... all mine  
Give me drugs, give me the drugs, tonight  
Do me like kush, keep it OG  
You should slide through on the low-key  
'Cause low-key

Baby I'm a fiend, I'm a fiend  
Oh you know you got me going off your dopamine  
All I really need, all I need, is for you to put me on to the recipe, yeah  
Ooh, ooh  
Purple flowers, candy showers, in the air  
You, you  
Dance for hours as I watch from over here

It's on my thing, you got me going off your dopamine  
It's on my thing, you got me going off your dopamine

Don't try to tell me calm down, calm down, calm down  
I'm surfin' on a wave now, wave now, wave now  
Blue drink in my red cup  
No telling when I wake up  
Hit your phone up from outta town  
Hope to see, you around

I feel like  
Falling in love, falling in love, tonight  
Ah yeah, yeah, yeah

I'm feeling like  
Falling in love, falling in love, surpass the light  
Baby you're gonna be... all mine

Ooh, ooh

You, you  
Dance for hours as I watch from over here

You can bring your friend if she a freak on the low  
Heard she used strips, she a beast on the pole  
Know a couple niggas that would pay for the though  
Woah, woah  
You can bring your friend if she a freak on the low
