

# Half In Love

Elijah Blake

Ooh-ooh-ooh, baby, there's a hole in the place of your heart  
Yeah, baby, you're so cold when the day goes from sunshine to dark, yeah  
Baby, what is this force that just pulls us apart, you used to be happy  
Now, baby, I don't even know who you are, who you are

Why you gotta go and do me, do me, baby  
Why you do me like that  
See I been tryna give you love  
But all you do is hand it to me right back  
Baby, there's a hole in the place of your heart

You're only half in love  
I gave you all of me  
All the best of me  
And you act as if it ain't enough  
You're only half in love  
While every part of me  
My crown to my feet  
Every inch, it belonged to you  
But you're half in love  
(Half in love) ooh-ooh-ooh  
(Half in love) you're only half in love  
(Only half in love) you-ooh-ooh  
(Half in love) you're only half in love

Baby, see the flames but I don't feel the fire, yeah  
Baby, there's only pain when I look in your eyes, oh, mmh-mmh  
And, baby, I don't get chills anymore when I hold you at night, oh-oh  
Baby, I don't even know if we can make it out alive

Why you gotta go and do me, do me, baby  
Why you do me like that  
See I been tryna give you love  
But all you do is hand it to me right back  
Baby, there's a hole in the place of your heart

You're only half, oh, in love (in love, oh)  
I gave you all of me  
All the best of me  
And you act as if it ain't enough  
You're only half in love  
(I gave you, ooh)  
While every part of me  
My crown to my feet (to my feet)  
Every inch, it belonged to you  
But you're half in love  
(Half in love)  
(Half in love) half in love  
(Only half in love)  
(Half in love) ooh-ooh-ooh-ooh  
Woo!  
You're only half in love
