

Magic Moments

Elijah Blake

Ooh baby, oh honey
Hey

Heaven's 'bout to set the world on fire
'Cause their favorite angel's fallen from the sky
You came down and brought me back to life

'Cause in love, I bled and died a thousand times
Don't let feelings get up in your head
So just listen close
And just let it flow

Whatever you call it (Magic moments)
Some gin and some tonic (We can own it)
'Cause I really want it
You're so
Supernatural

Whatever you call it (Magic moments)
Some gin and some tonic (We can own it)
'Cause I really want it
You're so
Supernatural

'Cause you're my sunrise
Ice cold drink in the summertime
You've brought me light
In my darkest hour
Different, I'm different
Never wanted anyone

'Cause in love, I bled and died a thousand times
Don't let feelings get up in your head
So just listen close
And just let it flow

Whatever you call it (Magic moments)
Some gin and some tonic (We can own it)
'Cause I really want it
You're so
Supernatural

Whatever you call it (Magic moments)
Some gin and some tonic (We can own it)
'Cause I really want it
You're so
Supernatural

Magic moments
Up in the clouds
Magic moments
Love me now

Magic moments
Whatever you call it (Yeah, magic)
Up in the clouds
Some gin and some tonic (Ooh, we can)

Magic moments
'Cause I really want it
You're so
Supernatural
Love me now

Whatever you call it (Magic moments)
We don't gotta put a name on it, baby
Some gin and some tonic (We can own it)
'Cause I really want it
You're so
Supernatural

Magic moments
Up in the clouds
Magic moments
Love me now
