Elijah Blake

Could we get a room  
On the south side of the ghetto  
Could we make sweet love  
Within the furthest of the meadow  
Can we get it on, get it on  
'Til the sun gives light  
Could we just kiss each other  
Like it was our very very very first time

Please, give me some more (oh)  
Please, just a little bit more (more)  
I like the way you touch me  
Give me some more (more)  
Baby, I'm fiendin' and I like it  
Got to have some more

Can we hold hands  
And walk across the sandy beaches  
Can we stop and stare  
Just looking at each other, looking at each other  
Can we embrace each other  
While the moon gives light  
Can we make a pact  
To stay together forever forever forever

Please, give me some more (more)  
Please, just a little bit more (more)  
More...  
Baby, I'm fiendin' and I like it  
Got to have some more...  
A little bit more...
