Satisfied

Elijah Blake

What I gotta do to make you stay the night?
'Cause you ain't never satisfied, you ain't never satisfied
What I gotta do to subtract from this divide?
'Cause you ain't never satisfied, you ain't never satisfied

Put up that drink for you (For you)
I even stopped textin' exes for you (Yeah)
I read my DMs for you (All of them)
It's all about us, forget them for you (Yeah yeah)
Call you on a Monday 'cause I miss you ('Cause I miss you)
But you be on that bullshit, what's the issue? Shade
Kill that attitude 'cause it don't fit you (It don't fit you, y
eah yeah)
Oh, but I ain't tryna fix you, no

What I gotta do to make you stay the night?
'Cause you ain't never satisfied, you ain't never satisfied
What I gotta do to subtract from this divide?
'Cause you ain't never satisfied, you ain't never satisfied

They don't love the way we love
Ain't nothin' 'bout it regular
It's just human nature
They don't wanna see you doin' better
Ain't your girlfriends miserable?
Be careful of the company that you choose
Are you gonna let 'em come between us?
When they ain't ever really found love, love, love

What I gotta do to make you stay the night?
(What I got to do to make you stay?)
'Cause you ain't never satisfied (Ain't never satisfied)
You ain't never satisfied (No, you ain't never satisfied)
What I gotta do to subtract from this divide? (Whoo)
(My confusion multiplied)
'Cause you ain't never satisfied (You ain't never satisfied)
You ain't never satisfied (No, you ain't never satisfied)

You ain't satisfied, no
You ain't satisfied, oh no
Even if I gave you my life
You probably still wouldn't be satisfied
