

Sky Blue

Elijah Blake

I catch a vibe when I'm with you
Let's just lay here until sky blue
Change every color, every hue
From stormy grays into sky blue

How you wastin' tears for a nigga
Who can't even look you in those pretty, brown eyes?
Baby, keep it real with a nigga
It seems you wear your happy like a beautiful disguise
Ain't you tired of givin' love and don't get it back?
Plannin' a future with someone who got other plans

Girl, it's more than just a feeling, whoo
When you ask me for the meaning
When I say this love is spiritual
I catch a vibe when I'm with you
Let's just lay here until sky blue
Change every color, every hue
From stormy grays into sky blue

Walkin' up in that sundress
You and dude ain't made progress
You can't even trust the process
All of this is just nonsense
If true love still exists, I'm down to take a risk
Curry with the shot, I can't miss

Oh, I catch a vibe when I'm with you
Let's just lay here until sky blue
Change every color, every hue
From stormy grays into sky blue
Girl, it's more than just a feeling, whoo
When you ask me for the meaning
When I say this love is spiritual
I catch a vibe when I'm with you
Let's just lay here until sky blue
Change every color, every hue
Sky blue

Sky blue, sky blue
Late nights, I think of you
