

Time & Space

Elijah Blake

I hope this never goes away
Cause I been missing you all day
Yeahe yeah
Can't let this moment get away
Truth or dare
Do you feel the same

Cmon and
Come closer
To me ya body
I want it
Tired of waiting
I need to see you tonight
So

Whatever it takes
I gotta see your face
(I gotta see your)
Oh baby
No matter how far babe
I don't care cause
I'll go through time and space
I'll do whatever it takes

I just wanna claim you
I just wanna call you mine
And never be lied to
Our chemistry is hard to find
Nobody like you
When you're away from me
It's hard to breathe
And every time you
You come around
I feel your energy

Cmon and
Come closer
To me ya body
I want it
Tired of waiting
I wanna see you tonight
Yeah yeah

Whatever it takes
Uh hoh
I gotta see your face
(I gotta see your)
No matter how far babe
I don't care cause
I'll go through time and space

I'll do
I'll do whatever

Whatever it takes
I gotta see your face
No matter how far babe

I don't care cause
I'll go through time and space
I'll do whatever it takes
