Whatever Happened

Elijah Blake

Her name was Juliet
And I met her up at South by during Future's set
By the nosebleed with her entourage
Austin felt like paradise (Austin felt like paradise)
Then I flew her out to Paris twice
Bottom line
It was three times

Wasn't 'bout the sex, I admit that shit was super fly
Wasn't smokin' yet, til she went and got me super high
Took a breath and blew my mind
Somehow I went left and you got right, got right

Whatever happened?
Whatever happened?
This ain't a rhetorical question
I'm asking girl, whatever happened?
Last I seen you we were planning out our anniversary
Whatever happened?
Whatever happened?
This ain't a rhetorical question
I'm asking girl, whatever happened?
I was 'bout to pull you out that dorm and put you up in a suite
It could have happened

What happened to the tattoo on your hand?
Are you still in Arizona?
Remember you was telling me 'bout those plans
How is college life working out for you?
I was tryna get your passport stamped up
And now it's three of y'all in a dorm room cramped up

Wasn't 'bout the sex, I admit that shit was super fly
Wasn't smokin' yet, til she went and got me super high
Took a breath and blew my mind
Somehow I went left and you got right
But I wanna know

Whatever happened?
Whatever happened?
This ain't a rhetorical question
I'm asking girl, whatever happened?
Last I seen you we were planning out our anniversary
Whatever happened?
Whatever happened?
This ain't a rhetorical question
I'm asking girl, whatever happened?
I was 'bout to pull you out that dorm and put you up in a suite
It could have happened

Whatever
Whatever, whatever
Whatever, whatever
Whatever
Whatever, whatever
Whatever, whatever happened?
Whoa-oa, whoa-oa

Whatever happened?
Whoa-oa, whoa-oa
Whatever happened?
Tried to show you love but I guess that's some shit that you just can't teac
h back

Whatever happened?
Whatever happened?
This ain't a rhetorical question
I'm asking girl, whatever happened?
I was 'bout to pull you out that dorm and put you up in a suite
And give you them keys
