

# When It's Magic

Elijah Blake

Mmm

Oh yeah yeah

Mmm

Oh yeah yeah

I can tell that you, been patient  
Cause darling we've been friends for quite a while  
You're still cursed for past relations, but i've been loving you since I was a child  
Here we are in this big old room, nothing but spaces  
Opportunity is  
Are you going to wait for me to make the first move?  
I'm tired, i'm tired of waiting on you

Through the fire babe, brimstone  
Real wide, i'll go with you  
When it hurts, hold me close  
Together we can burst through  
I can feel your energy, cast a little spell on me  
Don't explain what were gonna do my love  
Don't need a reason, to feel  
When it's magic, oou, naa  
Don't need a reason (forreal)  
When it's magic, nah uh uhh  
You don't, need a reason

(Don't need a reason, yeah, ohh)

Tell me I can take it there, five of my fingers, grippin' on your dirty air  
Girl you're breathing heavy in my ear  
You could have been anywhere, but the heart lead you here  
I no longer want to be, just a name in your call log  
Call me on Wednesday, just cause it's Wednesday baby  
See nobody, nobody, nobody wants to be loved

Through the fire babe, brimstone  
Real wide, i'll go with you  
When it hurts, hold me close  
Together we can burst through  
I can feel your energy, cast a little spell on me  
Don't explain what were gonna do, my love  
Don't need a reason, to feel  
When it's magic, oou, naa  
Don't need a reason (forreal)  
When it's magic, nah uh uhh  
Ohh, you don't
