

# White Rum

Elijah Blake

There's nothin' like a car that don't wanna drive  
When you're on the move  
There's nothin' like an appetite when a meal just won't do  
There's nothin' like a...  
That won't come when you need it to  
My baby's got 20/20 vision  
But can't see it from my point of you

Don't wanna leave  
Don't wanna see you lovin' on anybody  
If it's not me  
We don't wanna stay  
We don't like the taste  
It's a bitter pill to swallow  
So we take it with a hard drink

Oh, look at what we've become  
Are we gonna be like the lonely ones?  
And, oh, when the cold water runs  
Is it gonna sting like  
The first time sippin' white rum

(Listen)  
I can't stop lookin' at pictures  
'Cause I'll never see you the same  
It's a goodbye that I'll always remember  
Even when memories fades

You don't wanna leave  
You don't wanna see me lovin' on nobody  
If it ain't your body  
We don't wanna stay  
We don't like the taste  
It's a bitter pill to swallow  
So we take it with a hard drink

Oh, look at what we've become  
Are we gonna be like the lonely ones?  
And, oh, when the cold water runs  
Is it gonna sting like  
The first time sippin' white rum

Pick up the phone and call me  
Pick up the phone and call me  
If you want me  
If you want me  
If you want me  
If you're thinkin' of me (call me)

Pick up the phone and call me (call me)  
Pick up the phone and call me (you got my number)  
If you want me (why don't you call me?)  
If you want me  
If you want me  
If you're thinkin' of me (is there anybody else)

Pick up the phone and call me (takin' your time? Lookin' for you?)

Pick up the phone and call me (keepin' you up at night?)  
If you want me  
If you want me (nobody, nobody, nobody, nobody)  
If you want me  
If you're thinkin' of me, oh

Look at what we've become  
You can try to turn water into wine  
It'll never be white rum
