

I'm Yours

Elijah Woods x Jamie Fine

Let me take you home
Turn the lights down low
I got things to show ya
Let me hold you close
Can you take things slow
Know you like control
So tonight you own it
Oh, girl, tonight I'm yours

Whine for me, mami, can you take your time
You know I like the way you make it
Whine for me, mami, every day and night
You know I like the way you say it
Whine for me, mami, can you take your time
You know I like the way you make it
Whine for me, mami, every day and night
You know I like the way you say it

My eyes are on you, watching me
I know you're wanting to show me
What you're wanting, what you need
Feels better when you're putting it on me
Wanna take you home
'Cause you're all I want
Girl you know that my eyes are on you, watching me
Feels better 'cause I know that you know me

You could leave, but I wouldn't wanna be by myself
Believed that I wanted me to be someone else
See, but I'm blinded by the way that we felt
I need ya, oh no I need ya

Whine for me, mami, can you take your time
You know I like the way you make it
Whine for me, mami, every day and night
You know I like the way you say it

My eyes are on you, watching me
I know you're wanting to show me
What you're wanting, what you need
Feels better when you're putting it on me
Wanna take you home
'Cause you're all I want
Girl you know that my eyes are on you, watching me
Feels better 'cause I know that you know me

This time
Feeling you better
This time
Better than ever
This time
Feel it together
This time
Wanting that pleasure
This time
Feeling you better
This time

Better than ever
This time
Feel it together
This time

My eyes are on you, watching me
I know you're wanting to show me
What you're wanting, what you need
Feels better when you're putting it on me
Wanna take you home
'Cause you're all I want
Girl you know that my eyes are on you, watching me
Feels better 'cause I know that you know me
