

Love Strong

Elijah Woods x Jamie Fine

All the lights off
World stops spinning
But my minds not
Got me thinking
That these nights suck
Without you lying here next to me

I'm all tied up
But the pain's still missing
Should I feel numb
'Cause I feel no different
When the rain comes
I want you lying here next to me

Hold on to that moment
We ain't done, girl, I know it
Same love, different doses
Same love, different focus

I'ma wait up for your love
Guess another day's gone
Make it to the next one
I'ma wait up for your love
Are we wasting all the days
Proving that our love's strong
I'ma wait up for your love
Guess another day's gone
Make it to the next one
I'ma wait up for your love
Are we wasting all the days
Proving that our love's strong

Baby, you're my drug
Think I'm overdosing
Tryna fix me up
When I think I'm broken
Think you messed me up
But I never noticed
But I guess I'm stuck
On your rollercoaster

Hold on to that moment
We ain't done, girl, I know it
Same love, different doses
Same love, different focus

I'ma wait up for your love
Guess another day's gone
Make it to the next one
I'ma wait up for your love
Are we wasting all the days
Proving that our love's strong
I'ma wait up for your love
Guess another day's gone
Make it to the next one
I'ma wait up for your love
Are we wasting all the days

Proving that our love's strong

Fighting it
Sick of that
Know we've been
Holding back
Wondering
Where we're at
Has got me proving that we're
Fighting it
Sick of that
Know we've been
Holding back
Wondering
Where we're at

I'ma wait up for your love
Guess another day's gone
Make it to the next one
I'ma wait up for your love
Are we wasting all the days
Proving that our love's strong
I'ma wait up for your love
Guess another day's gone
Make it to the next one
I'ma wait up for your love
Are we wasting all the days
Proving that our love's strong

I'ma wait up for your love
'Cause I know you're showing up
