

Enemies

elijah

Cold and I'm scratching at my throat
I'm over acting like I know what to do
Know what to say, how to get over you
Know what it takes to go
I'll be alright here on my own
How are you okay, and I'm so far behind?
I fucking hate that you're stuck on my mind
I'm going insane now

I'm giving up, I don't know what to do
Why can't I erase you?

How did you burn me down in your head?
Tell me, what's the remedy that got you hating me?
You left me here for dead
Wish I could see how easily it was to bury me
Maybe I just needed time
But I don't think I can survive
How'd you burn me down in your head?
How'd you take my memory and make us enemies?

Broke every door I tried to close
Letting go of any hope that I had
You'd fade away, I'd leave you in the past
It never changes

(I'm giving up, I don't know what to do)
(Why can't I erase you?)

How did you burn me down in your head?
Tell me, what's the remedy that got you hating me?
You left me here for dead
Wish I could see how easily it was to bury me
Maybe I just needed time
I don't think I can survive
How'd you burn me down in your head?
How'd you take my memory and make us enemies?

(Make us enemies)
(Make us enemies)
(Make us enemies)
(Make, make, make)
(Make us enemies)
(Make us enemies)
(Make us enemies)
(Make, make, make)

(How did you find) find a way to hate me?
(Am I going blind?) 'Cause you make it look so easy
What did it take to numb the pain
Forget my name, set me in flames?

How did you burn me down in your head?
Tell me, what's the remedy that got you hating me?
You left me here for dead
You left me here for dead

How did you burn me down in your head?
Tell me, what's the remedy that got you hating me?
You left me here for dead
Wish I could see how easily it was to bury me
Maybe I just needed time
But I don't think I can survive
How'd you burn me down in your head?
How'd you take my memory and make us enemies?

(Make us enemies)
(Make us enemies)
(Make us enemies)
(Make, make, make)
(Make us enemies)
(Make us enemies)

How'd you take my memory and make us enemies?
