guilty

elijah

Take a look at this mess
That you left me in
These scars all on my skin
My chest
Has been sinking in
How could you live with what you did
Where the hell is your sympathy?
Guess you never gave a damn about me
How could you take one look at me
And not feel, not feel
Guilty

You can call me selfish
You could say I'm overreacting
You can call me helpless
But don't lie and say you can't see me
Falling apart on repeat
It wasn't that hard to leave me
Oh, why did you leave me

Take a look at this mess
That you left me in
These scars all on my skin
My chest
Has been sinking in
How could you live with what you did
Where the hell is your sympathy?
Guess you never gave a damn about me
How could you take one look at me
And not feel, not feel
Guilty

Stop playing the victim
It's your fault, but it's always all on me
I wish you would just give up
Can't hide, don't lie and say you can't see me
Falling apart on repeat
It wasn't that hard to leave me
Oh, why did you leave me

Take a look at this mess
That you left me in
These scars all on my skin
My chest
Has been sinking in
How could you live with what you did
Where the hell is your sympathy?
Guess you never gave a damn about me
How could you take one look at me
And not feel, not feel
Guilty

You wrecked me, then left me
Out here on my own
I'm broken and hopeless
Dying all alone
You wrecked me, then left me

Out here on my own
I'm broken and hopeless
Dying all alone

Take a look at this mess
That you left me in
These scars all on my skin
My chest
Has been sinking in
How could you live with what you did
Where the hell is your sympathy?
Guess you never gave a damn about me
How could you take one look at me
And not feel, not feel
Guilty

Out here on my own
I'm broken and hopeless
Dying all alone

Take a look at this mess
