HUMAN

elijah

You're so fake
How could you lie right to my face?
Made me think that I'm to blame for your mistakes
Yeah, you cut me down but it's too late now

Cold-hearted, no emotion
When did you become so frozen?
Swear to god you're so devoted
To any reason to leave me broken

You know you're killing me
When you lie right through your teeth
Break me down my knees
You only wanna watch me bleed
Now you left me in ruins
How could I be so stupid?
If you knew what you were doin'
How could you be human?

Every lie
You said under your disguise
Sends a dull knife down my spine
Every time
You cut me down
But it's too late now

Cold-hearted, no emotion
When did you become so frozen?
Swear to god you're so devoted
To any reason to leave me broken

You know you're killing me
When you lie right through your teeth
Break me down my knees
You only wanna watch me bleed
Now you left me in ruins
How could I be so stupid?
If you knew what you were doin'
How could you be human?

No mercy, no goodbyes
You don't care if I'm dead or alive
If I had the chance to rewind
I'd cut you off and take back what's mine
Take back what's mine
Take back what's mine
No mercy, no goodbyes
You don't care if I'm dead or alive
If I had the chance to rewind
I'd cut you off and take back what's mine

You know you're killing me
When you lie right through your teeth
Break me down my knees
You only wanna watch me bleed (Watch me bleed)
Now you left me in ruins
How could I be so stupid?

```
If you knew what you were doin'
How could you be human?

No mercy, no goodbyes
Yeah, how could you be human?
You don't care if I'm dead or alive
Yeah, how could you be human?
```

```
If you knew what you were doin'
How could you be human?

No mercy, no goodbyes
Yeah, how could you be human?
You don't care if I'm dead or alive
```
