

# SKIN

elijah

Is it the end  
Or am I overthinking again  
I can feel my blood running thin  
I can't pretend now  
I'm losing my breath  
Hole in my chest now can't  
Hide who you are but I know what you wanted  
Lock me down in fear  
I shoulda tore us apart right when we started  
Now you won't disappear

I let you in  
I let you take  
Everything that's left inside of me  
Stuck your poison in my bones  
Then you left me all alone  
I need an end  
I need a break  
I'm paralyzed face down in misery  
Don't know how I'm gonna live  
When you're trapped deep down inside my skin

(Inside my skin)

I think it's the end  
It's never over again and again  
I swear I'll take a head full of lead  
Just to forget you  
I'm over the edge  
What can I do  
Yeah, I know you don't care if I'm bleeding out  
There's no apology for you leaving me  
Broken the light's fading out  
Now I'm going down

I let you in  
I let you take  
Everything that's left inside of me  
Stuck your poison in my bones  
Then you left me all alone  
I need an end  
I need a break  
I'm paralyzed face down in misery  
Don't know how I'm gonna live  
When you're trapped deep down inside my skin

I feel you crawling inside  
It's getting harder to breathe  
If I die tonight  
You should know that I'm taking you  
Down with me

Yeah, I'm taking you down with me

I let you in  
I let you take  
Everything that's left inside of me

Stuck your poison in my bones  
Then you left me all alone  
I need an end  
I need a break  
I'm paralyzed face down in misery  
Don't know how I'm gonna live  
When you're trapped deep down inside my skin
