elijah

Just one bite  
You've got teeth like knives  
Let the fangs sank deep in the main line  
Eyes  
Leave me paralyzed  
Blood runs black and I cant survive  
Drop dead  
Toxic  
You're the one driving nails in the coffin  
Locked in  
No stopping  
Gave you every chance but you leave me no option

Feels like I'm suffocating  
I swear slowly fading  
My blood is on the blade  
You're the venom in my veins  
There's nothing left to save me  
Cause you are the symptom  
I am the victim  
I am the victim

Oh  
Isn't it typical  
Leaving me miserable  
Now I'm caught up in the chemicals  
Choke  
More than physical  
Condition critical

Feels like I'm suffocating  
I swear slowly fading  
My blood is on the blade  
You're the venom in my veins  
There's nothing left to save me  
Cause you are the symptom  
I am the victim

I don't make deals but here's an offer  
I'll cut off the head  
Or die in the slaughter

Die

Feels like I'm suffocating  
I swear slowly fading  
My blood is on the blade  
You're the venom in my veins  
There's nothing left to save me  
Cause you are the symptom  
I am the victim  
Cause you are the symptom  
I am the victim
