ELIO

Message in a bottle
I'm writing my novel
Brains like Aristotle
Face like Harry Styles
And if you're invited
You might get ignited
Hot like ultra violet
I just gotta light it

Watch it happen right in front of your face like no way
Spell out my name when you get to the gates like a race
'Cause

I'm so turbo
I run
Every borough
I'm so Virgo
I burn
My inferno

Watch it happen right in front of your face like no way
Spell out my name when you get to the gates of my inferno
