

Jackie Onassis

ELIO

Know I run away just to cope with a bad day
And don't wanna say goodbye on the phone
And I know you'll wait around when pick me up at 7
But babes, when I get in the car, just go

I've been wasting time searching
Never in on the joke
I think, taking my time is running in circles
I feel bored when I'm home alone, but

We can drive your car to Dallas
And we can plan the weekend in 7/11
Tell me how you live with your parents
And we can drive away from this adolescence
We can go to dinner in Paris
And we'll be trends in fashion like Jackie Onassis
I'll keep taking antidepressants
We can drive away from this adolescence

Know you think it's funny
When I fuck with your dad jokes
And I know you wanna laugh when you don't
Cause working at home making 14 an hour
But when we drive 'round town
We can ride till we're broke

I've spent my whole life searching
Make me feel like a joke
I think making money to waste all your time just
Never feels like enough
Oh but

We can drive your car to Dallas
(We can go, we can go)
And we can plan the weekend in 7/11
Tell me how you live with your parents
(We can drive your car)
We can drive away from this adolescence
We can go to dinner in Paris
(Let's escargot, baby!)
And we'll be trends in fashion like Jackie Onassis
And I'll keep taking antidepressants
We can drive away from this adolescence

We can be like Jackie Onassis and wear big glasses
And only fly private to fit our baggage
Cause we're overdramatic
And the world is ending
So fuck the environment, baby
We can go to dinner in Paris and spend our advances
Who cares about money and finances?
I'll keep taking antidepressants and count my blessings
I've learnt my lesson

We can go to dinner in Paris
(Let's escargot, baby!)
And we'll be trends in fashion like Jackie Onassis

I'll keep taking antidepressants
We can drive away from this adolescence
We can be like Jackie Onassis and wear big glasses
And only fly private to fit our baggage
Cause we're overdramatic
And the world is ending
So fuck the environment, baby
We can go to dinner in Paris and spend our advances
Who cares about money and finances?
I'll keep taking antidepressants and count my blessings
I've learnt my lesson
