

## More Than My Mind

ELIO

Tongue-tied and I like ya, release some stress  
No blind conversations, I've been a mess  
Screaming and fighting, I haven't liked this  
We could do better, we're just wasting our time here

'Cause you're the only one I want, and I like that  
Yeah, you like that  
I'm the one you really want and I know that  
'Cause when you're right back in my arms

I wonder, what are we fighting for if there is no other?  
I'd wanna fight with even when I don't  
Don't care, just shut up and kiss it all better  
By the end of the night, gonna be on more than my mind, mind  
I wonder, what are we fighting for if there is no other?  
I'd rather try with even when I don't  
Don't care, just shut up and kiss it all better  
By the end of the night, gonna be on more than my mind, mind

You're good when you're bad, I must admit (I must admit)  
But when we go into fighting, you're a piece of shit  
So why are you talking? Show me attention  
You better give me or I'll leave your love and all your affecti  
on

'Cause you're the only one I want, and I like that  
Yeah, you like that  
I'm the one you really want and I know that  
'Cause when you're right back in my arms

I wonder, what are we fighting for if there is no other?  
I'd wanna fight with even when I don't  
Don't care, just shut up and kiss it all better  
By the end of the night, gonna be on more than my mind, mind  
I wonder, what are we fighting for if there is no other?  
I'd rather try with even when I don't  
Don't care, just shut up and kiss it all better  
By the end of the night, gonna be on more than my mind, mind

By the end of the night, gonna be on more than my mind, mind
