

# Something For Nothing

ELIO

Tell me what to feel don't know what to feel when you're giving  
me nothing

And I turn, everything to nothing after feeling like we're getting  
so close, yea yea

Tell me what to feel don't know what to feel when you're giving  
me nothing

And I know, everything about you maybe I don't even know ya at  
all, yea yea

Keep walking those fine lines odds at one in a million

Already know what the deal is when

You start talking, that's high tide now

When you're taking your time

I'm just falling in line

Why don'tcha cut to the chase

Saving my, saving my, saving my face, yea

Got you coming in waves

Keep losing my place now

Caught in the middle lets make it official with you

It's all in right timing in this space and this feeling for you  
, ah...

Tell me what to feel don't know what to feel when you're giving  
me nothing (you give me nothing)

And I turn, everything to nothing after feeling like we're getting  
so close, yea yea...

Keep walking those fine lines odds at one in a million

Already know what the deal is when

You start talking, that's high tide now

I can't stay here forever

I can't stay still for you
