

# Lost Soul

Elis

He took my soul  
Took my soul  
In his hands  
My mind got dark  
Mind got dark  
In his hands  
When did I begin  
To follow the shadows  
They fill my dreams with pain and sadness  
When did I begin  
To feel the sorrows  
Then I laid my soul into your hands  
He said sweet words  
Said sweet words  
With his voice  
He seduced me softly  
Seduced you  
With his voice  
When did I begin  
To follow the shadows  
They fill my dreams with pain and sadness  
When did I begin  
To feel the sorrows  
Then I laid my soul into your hands  
Once times were not so dark  
But then the shadows took hold  
Of my soul  
Since then I feel  
My mind's lost in madness  
Lost my soul  
In the dark  
Lost my mind  
In the dark
