

# I Don't Do Neverminds

Elisa

Been dreaming of walking with a new song to listen to  
With a couple of plans in mind I would love to share with you  
But there's no time, but there's no time  
Been thinking a zillion things we shouldn't have let go of  
Like converting a Cadillac to a hybrid and travel  
Don't ask me why, or tell me why

But take me to a party, yeah  
Let's go to the movies, yeah

Let's throw away the watch[?]  
[?] all the constellations we love  
No one ever made me feel like it's all alright  
But we've got to treasure it  
Oh boy, anything, I'd do anything  
I adore sitting around a fire at night  
It would make me feel so happy  
I'd be all wrapped up singing acapella, la la  
'Cause I wouldn't be asking you

To take me to a party, no  
Or go to the movies, no

Been thinking it's all a matter of love anyways  
And none of this should be important or relevant in the end  
But I'm a girl, and you should know what girls do

They bring it up, they don't sink it in alcohol  
We bring it up, we don't bury it like it's not there at all  
We bring it up, up, up, there at all  
We bring it up, up, up

I don't do neverminds, no  
I don't do neverminds, no

Let's throw away the watch[?]  
Before all the constellations we love  
No one ever made me feel like it's all alright  
But we've got to treasure it  
Oh boy, anything, I'd do anything  
I adore sitting around a fire at night  
It would make me feel so happy  
I'd be all wrapped up singing acapella, la la  
'Cause I wouldn't be asking you

To take me to a party, no  
Or go to the movies, no

They bring it up, they don't sink it in alcohol  
We bring it up, we don't bury it like it's not there at all  
We bring it up, up, up, there at all  
We bring it up, up, up

I don't do neverminds, no  
I don't do neverminds, no

Let's throw away the watch[?]

Before all the constellations we love  
No one ever made me feel like it's all alright

So, we would pick up where we left off  
So, we would pick up where we left off  
So, we would pick up where we left off  
So, we would pick up where we left off  
So, we would pick up where we left off  
So, we would pick up where we left off  
So, we would pick up where we left off  
So, we'll pick up where we left off

'Cause I don't do neverminds, no  
I don't do neverminds, no
