

Just Some Order

Elisa

I need some darkness and sunshine
I'm still afraid of being unkind
I remember but I forget
I forget I forget

I'd like some order
just some order round here
I'd like some order
just some order around here
I'd like some order
just some order round here
I'd just like some order
just some order round here

all I have is courage and feel
this thoughts they don't wait
they're just like time
they're just like fate
they are just like me

I'd like some order
just some order round here
I'd like some order
just some order around here
I'd like some order
just some order round here
I'd just like some order
just some, some order around here
I'd like some order
I'd like some order
I'd like some order
I'd like some order around here
