

Forever Love

Elissa

When I look into your eyes
I see a never ending paradise
Even when your far away
I know your mine eternally
When the day turns into night my love
I know this love affair will never end
You are mine for the world to see
Forever you, forever me

Forever love
Your in my dreams, my angel from above
When i'm in your arms you'll keep me warm
Cause the love we share makes me aware
That you forever love

When the stars fall from the sky
I'll always know that you'll be by my side
Another tear will not be shed
Its just you and I
When the day turns into night my love
I know this love affair will never end
You are mine for the world to see
Forever you, forever me
