

# Moneybox

Eliza Doolittle

Instead of goin' out  
To dinner tonight  
We can grow vegetables  
Underneath our skylight

Clickin' these downloads  
Everyday has it's price  
We can lounge on our couch  
And listen to our 45's

So take your Dollar, your Yen  
Those Euros I can't spend  
I won't get down with no Pounds  
Never need to leave this house

Don't need your moneybox  
'Cause I got lots and lots  
Of what I need right here  
Right here with you, my dear

Don't need the cash machine  
To make our days happy  
So do me a favour  
Don't jingle your change, Sir

Instead of goin'  
To the movies tonight  
There's no shame in us playin'  
Best of that Sega Mega Drive

Hand me your trousers  
You got holes in your knees  
It's no fuss, patch them up  
Forget about that shoppin' spree

So take your Dollar, your Francs  
Your Rupees, no thanks  
I won't get down with no Pounds  
Never need to leave this house

Don't need your moneybox  
'Cause I got lots and lots  
Of what I need right here  
Right here with you, my dear

I know I don't need the cash machine  
To make our days happy  
So do me a favour  
Don't jingle your change, Sir

Don't have your moneybox  
It's not much of a loss  
All that dough just goes to waste  
'Cause you're worth more anyway

Don't need to travel  
'Round London tonight

We can play Monopoly  
Buy Mayfair in our own time

So take your Dollar, your Baht  
I couldn't give a penny  
That's enough, leave it out  
Never need to leave this house

Don't need your moneybox  
'Cause I got lots and lots  
Of what I need right here  
Right here with you, I know

I know I don't need the cash machine  
To make our days happy  
So do me a favour  
Don't jingle your change, Sir

Don't need the moneybox  
'Cause I got lots and lots  
Of what I need right here  
Right here with you, I know

I know I don't need the cash machine  
To make our days happy  
So do me a favour  
Don't jingle your change, Sir

Do me a favour  
Don't jingle your change, Sir
