

Pleasure Peak

Eliza Rose

I wanna let my hair down
So high that I beat gravity
I wanna scream your name now
I wanna read your pleasure peak, just you and me

If you light the fire
Fan it up into a flame
And if you really keep me going
An inferno we will make

I want you to get
Ecstasy
I want you to get
Ecstasy

I want you to get deep
I want you to get deep inside of me
I want you to get deep
I want you to get deep inside of me
I want you to get deep
I want you to get deep inside of me
I want you to get deep
I want you to get deep inside of me

I want you to get deep inside of me

You know I give you good loving
You have no reason to complain
I keep your head spinning round and round
You drink me up like champagne

If you light the fire
Fan it up into a flame
And if you really keep me going
An inferno we will make

I want you to get deep
I want you to get deep inside of me
I want you to get deep
I want you to get deep inside of me
I want you to get

Ecstasy
Ecstasy

I want you to get deep
I want you to get deep inside
I want you to get deep
I want you to get deep inside of me
I want you to get deep
I want you to get deep inside
I want you to get deep
I want you to get deep inside of me
I want you to get
