

Before I Go That Far

Elizabeth Cook

There are walls here in this house
That werent in the plans
The kind you build in silence
Not by hand
If u won't help me tear em down
Im not gonna stay around
You can't say i left you in the dark
Are you just gonna let me leave
Or stand between the door and me
(pause)
Before i go that far
Chorus
Before i reach the place
That no matter what you do or say
There's no way that you could touch my heart
Before i finally had enough
Imagine me endin up
In anothers arms
If that breaks your heart. . . stop me
Before i go that far
Well that first step will be
The hardest one to take
Goodbye is not a choice
I wanna make
But baby somethings gotta give
All i know is i can't live
In this house with you the way things are
Im about to cross that line
Heres your chance to change my mind
(pause)
Before i go that far
Before i reach the place
Where no matter what you do or say
Theres no way that you could touch my heart
Before i finally had enough
Imagine me endin up
In anothers arms
If that breaks your heart. . . stop me
Before i go that far
Before i finally had enough
Just imagine me makin love
In anothers arms
If that breaks your heart . . . stop me
Stop me before i go that far
