

Bodytalk

Elize

Nice and soft
Nice and soft
I like your body talk
I like your body talk
I like your body talk

The base is pumping
My heart is jumping
I wanna hold you
And feel your body heat
Can you do deliver
You make me shiver
I wanna touch you
And feel you body heat

I feel you
You feel me
Let the groove set us free

That's the way I like it
I really want it
That's the way I like it
I like the way you walk
That's the way I like it
I really want it
That's the way I like it
I like your body talk

You've got it coming
Cause I've been longing
I wanna kiss you
And feel your body heat
You got me shining
Now I'm re lying
I wanna touch you
And feel your body heat

I feel you
You feel me
Let the groove set us free

That's the way I like it
I really want it
That's the way I like it
I like the way you walk
That's the way I like it
I really want it
That's the way I like it
I like your body talk

Nice and soft (6x)
I like your body talk (3x)

I feel you
You feel me
Let the groove set us free

That's the way I like it
I really want it
That's the way I like it
I like the way you walk
That's the way I like it
I really want it
That's the way I like it
I like your body talk

Nice and soft
Nice and soft
Nice and soft
Nice and soft
I like your body talk
