

# Falling Star

Elkie Brooks

Sitting behind the wheel of that racing machine  
Boy, you sure do look mean  
Boy, you sure do look neat  
But I know just where you're going when that red light turns green  
A hundred miles an hour down a dead end street

A brilliant flash of light then darkness  
A brilliant flash of light and then you're gone

Falling star, I know you  
I know what you're about  
Falling star, shine brightly  
End the night

You light up all our faces with your bright silver tongue  
All those songs that you've sung  
They still ring in my ear  
But you're just like all those others, you live fast and die young  
You'll sparkle for a moment then you'll disappear

A brilliant flash of light then darkness  
A brilliant flash of light and then you're gone

Falling star, I know you  
I know what you're about  
Falling star, shine brightly  
End the night

Why do I always end up with a tear in my eye  
Always pick the same guy  
Always end up alone  
My heart is as empty as that big black hole in the sky  
That empty place in heaven where my star once shone

"Falling star, shine brightly- Elkie Brooks

A brilliant flash of light then darkness  
A brilliant flash of light and then you're gone

Falling star, I know you  
I know what you're about  
Falling star, shine brightly  
End the night

Falling star, I know you  
I know what you're about  
Falling star, shine brightly  
End the night
