

# Jigsaw Baby

Elkie Brooks

I left home last night  
Thought it was all arranged  
Meet me at the usual place  
And I'll give you your diamond ring

Wrong again I see  
You were just playing with me  
I had to face the girls in school and smile

Jigsaw baby, I knew it'd never last  
Jigsaw baby, you're part of my past  
But I'll never understand  
Why the pieces won't fit together

I'm a girl who took a chance  
On a colour poster star  
Wild about your groovy looks  
And the way you play guitar

All I have left is a record on my machine  
And I think of you each time I hear it play

Jigsaw baby, I knew it'd never last  
Jigsaw baby, you're part of my past  
But I'll never understand  
Why the pieces won't fit together

I don't care if you don't need me any more  
And I don't care if the puzzle falls apart  
'Cause I can't fool you and I'm certainly not gonna fool myself  
'Cause there's just no way to hide the pain you feel  
When you have a broken heart

Knew it all along  
How this affair would again  
You weren't like other guys  
I fooled myself  
I'd do it all again  
And I wouldn't change a thing  
To be kissed by you, hold you, feel you in my arms

Jigsaw baby, I knew it'd never last  
Jigsaw baby, you're part of my past  
But I'll never understand  
Why the pieces won't fit together

Won't fit together  
Won't fit together  
Won't fit together  
Just won't fit together

Jigsaw baby, I knew it'd never last  
Jigsaw baby, you're part of my past  
Jigsaw baby, I knew it'd never last  
Jigsaw baby, you're part of my past
