

Learn To Love

Elkie Brooks

You can do what you want when you think no-one's looking
But you got to learn to love
You can play what you want but you won't get a booking
Till you learn to love

Though all logic seems to point the other way
You know, if you wanted to stay
Though your restless heart will surely make you pay
You know if you've a will you're bound to make a way
Make a way

You can howl at the moon when the city lies sleeping
But you got to learn to love
You can take what you want but there's nothing worth keeping
Till you learn to love

Though all logic seems to point the other way
You know, if you wanted to stay
Though your restless heart will surely make you pay
You know if you've a will you're bound to make a way Oh, you've
got to learn to love
Make a way

Oh, you've got to learn to love
You're bound to make a way
Oh, you've got to learn to love
Make a way
Oh, you've got to learn to love
Make a way
Oh, you've got to learn to love
