

## Live a Little Get Somewhere

Elkie Brooks

Live a little, get somewhere  
Funny how time can work on the mind  
You learn a little each day  
Live a little, get somewhere  
You'll never know how much I needed you  
I never thought to tell you  
Oh, anyday  
I could have been by your side  
Anyway, I played you wrong  
Too late to worry why  
Why's too late, you've gone

Live a little, get somewhere  
The watch that you gave me  
It doesn't keep good time  
But I can tell the day from night  
Night is when there's no one there  
Days are silent people everywhere  
Shouting loud but I can't hear  
Oh, live a day  
Learn to be a little better now  
Funny how I'm learning fast  
Too late to learn again  
It's much too late, it's past

Live a little, get somewhere  
Life for me now is a sailboat in a calm  
The storm has passed me by  
Live a little, get somewhere  
Look to the cloudless sky for the wind to come  
And blow my sailboat home  
Oh, any time  
I could see where I was going to  
Not any more, I've lost my way  
The map I had is old and torn  
The love I had has gone  
It's all gone away, away
