

## Our Love

Elkie Brooks

Here they come again  
Those haunting shades of doubt  
Each time I hear your name  
I come so close to calling out  
Isn't it so strange  
How much I have to hide  
After all the hurt we gave  
To each other's pride  
Our love will never come again  
Our love will never be the same  
Our love was deeper than we knew  
Our love was stronger than we two  
Now the shadows fall  
On a restless night  
And memories only fade  
To erase the better times  
It's times like this I can't forget  
The leaving that's behind  
Our love will never come again  
Our love will never be the same  
Our love was deeper than we knew  
Our love was stronger than we two  
You never know just what you get  
You never know, never knew?  
Our love will never come again  
Our love will never be the same  
Our love was deeper than we knew  
Our love was stronger than we two
