

# Since You Went Away

Elkie Brooks

Since you went away  
I ain't never been the same, baby

(Since you went away, I ain't never been the same)  
Since you went away  
(Never been nobody, ain't never been nobody)  
Ain't never been nobody  
(Since you went away, I ain't never been the same)  
Since you went away  
(Never been nobody, ain't never been nobody)  
Ain't never been nobody

You walked out and left me in the shadows  
I always thought that you wanted me forever  
You took my heart, my soul and my affection  
Now that you've gone I've lost my whole direction

Sometimes I feel that you're still here with me  
But when I wake up I realise that this just a dream  
Now you're gone away from me  
And all I wanna say

(Since you went away, I ain't never been the same)  
Since you went away  
(Never been nobody, ain't never been nobody)  
Ain't never been nobody  
(Since you went away, I ain't never been the same)  
Since you went away  
(Never been nobody, ain't never been nobody)  
Ain't never been nobody

Our love was a perfect combination  
We had a thing that was real  
All of a sudden without an indication  
You took my heart and left the situation

But now you're gone away from me forever  
The situation's getting worse instead of getting better  
Now you're gone away from me  
And all I wanna say

(Since you went away, I ain't never been the same)  
Since you went away  
(Never been nobody, ain't never been nobody)  
Ain't never been nobody  
(Since you went away, I ain't never been the same)  
Since you went away  
(Never been nobody, ain't never been nobody)  
Ain't never been nobody

But now you're gone away from me forever  
The situation's getting worse instead of getting better  
Now you're gone away from me  
And all I wanna say

(Since you went away, I ain't never been the same)  
Since you went away

(Never been nobody, ain't never been nobody)  
Ain't never been nobody  
(Since you went away, I ain't never been the same)  
Since you went away  
(Never been nobody, ain't never been nobody)  
Ain't never been nobody

(Since you went away, I ain't never been the same)  
Since you went away  
(Never been nobody, ain't never been nobody)  
Ain't never been nobody  
(Since you went away, I ain't never been the same)  
Since you went away  
(Never been nobody, ain't never been nobody)  
Ain't never been nobody
