

## Take Cover

Elkie Brooks

People ship reality  
They don't know that  
Nothing left for them to see  
Hear them calling  
Angels fly at dawn  
See them falling  
Nothing left to carry on  
But I know that life's too short

Take cover my love, my love  
There's nothing left to hide  
Take cover my love, my love  
If you want her to survive

You know, you know that it's true  
There's too much to much for them to do  
But I know that once again

Take cover my love, my love  
There's nothing left to hide  
Take cover my love, my love  
Come on baby here inside

Once again I stand here  
Waiting for the show to start  
Don't you know my time's too short

People ship reality  
They don't know that  
Nothing left for them to see  
But I know that once again

Take cover my love, my love  
There's nothing left to hide  
Take cover my love, my love  
If you want her to survive  
Take cover my love, my love
