Ella Eyre

I could sit and stare
I could lose a year watch it
Long as you are there
I got no sense about me

Something in the air
Filling up my head clocking
You without a care
Something so nice about it

So nice
So nice
So nice
So nice
Every part of you is taking my eye

So good
So good
So good
So good
Now that we're moving in sync at same time

Feels like
Domino season
Think I
Fell in that deep end

Can I see you soon
I like how I feel with you

Low lights
Do it all weekend
My my
What a good feeling

Can see you soon
I like how I feel with you

Easy as they come
Universe really working
Overtime with us
I got no stress about it

White flag in the air
Your hands in my hair
I love it
Too good to be true
But it's true
What do you do with me

So nice
So nice
So nice
So nice
Every part of you is taking my eye

So good

So good
So good
So good
Now that we're moving in sync at same time

Feels like
Domino season
Think I
Fell in that deep end

Can I see you soon
I like how I feel with you

Low lights
Do it all weekend
My my
What a good feeling

Can I see you soon
I like how I feel with you

Feel with
Feel with you
(I like how)
Feel with
Feel with you
(I like how)
Feel with
Feel with you
(I like how)
Feel with
Feel with you

Feels like
Domino season
Think I
Fell in that deep end

Can I see you soon
I like how I feel with you

Low lights
Do it all weekend
My my
What a good feeling

Can I see you soon
I like how I feel with you

(I like how)
(I like how)
(I like how)
(I like how)...
