

I Need

Ella Fitzgerald

I need a song to fill my heart with spring
I need a shade a leafy tree can bring

I need the rain to make my garden grow
I need the sun to keep my room aglow

I need a dream to set my goal apart
A spark of hope when dreams have come and gone

The air I breathe I know I need that too
But most of all my darling I need you

I need a dream to set my goal apart
One spark of hope when dreams have come and gone

The air I breathe I know I need that too
But most of all my darling I need you
Most of all my darling I need you
